A Chapter From the Personal Memoirs of Gen. Sheridan.

At the Cascades of the Columbia-A. Sheridan's Plank Movement-The Murders Brought to Justice.

One of the many chapters in Gen. Sheridan's memoirs just published, of special interest to readers in this section of country is here reproduced. It serves to show the literary style of the writer-author and the great merit of his work.

The failure of the Haller expedition from the incompetency of its commander, was a great mortification to the officers and men connected with them, and taken together, had a marked effect upon the Indian situation in Oregon and Washington territories at that particular time. Besides, it led to further complications and troubles, for it had begun to dawn upon the Indians that the whites wanted to come in and dispossess them of their lands and possessions.

At the Cascades of the Columbia, the Indians, who had been so successful in their resistance to the advance of the whites, were now being driven back by the superior arms of the whites.
